

BELOVO PHARMA

Health division of Beluga NV

Belovo Pharma is a Belgian company specialised in the development and formulation of original pharmaceutical and para-pharmaceutical products, designed to treat pathologies such as hypercholesterolemia, obesity and type II diabetes.

Soluchol®, a natural innovation that reduces cholesterol level, is available in Belgian pharmacies.

Belovo Pharma is part of Belovo Group, who also owns a department specialised in nutrition since 1997 Belovo Nutrition is a Belgian Company specialised in the development et the formulation of dietary products naturally equilibrated in lipids, through its brand Columbus®.

Columbus® products (eggs, pork meat and by-products such as sausages) are available in Belgian supermarkets.

By this double approach, through nutrition and supplementation, Belovo Group contributes to an integrated solution against dietary-associated pathologies, through healthy and natural means.
